

Small Organization Nonprofit Management Liability Insurance

A Cost-Saving Program Exclusively for Wisconsin Nonprofits Association Members

Quality Coverage at an Affordable Price

With more than 15 years of experience in the nonprofit sector, Monitor Liability Managers LLC understands that large and small nonprofits have different risks and insurance needs.

Nonprofit Management Liability Insurance offers protection for individual directors and officers when claims are made against them. It also safeguards the organization against liability for claims brought by employees and/or clients. This coverage helps to attract and retain qualified board members.

While reducing expenses is something that most nonprofits have to do, eliminating insurance should not be an option. For a small nonprofit, finding quality coverage at an affordable price used to be difficult. Monitor's Nonprofit Management Liability Insurance for small organizations is available for nonprofits which operate in specific areas, have up to \$2.5 million in assets and have not previously purchased this type of insurance.
